## Soda™

common name for sodium and carbonic acid salts.

Chemical element: **Na**

### #interesting\_facts

Sodium is the sixth most abundant element in the Earth's crust and is found in many minerals. Most sodium salts are very soluble in water. Sodium and chlorine are the most common dissolved elements in the oceans (by weight).

## TYPES OF SODA

### Baking soda

Sodium bicarbonate  
**NaHCO<sub>3</sub>**

It is used in the food industry, cooking and medicine as a means that relieves burns and reduces stomach acidity.

### Washing soda

Sodium carbonate  
**Na<sub>2</sub>CO<sub>3</sub>**

It is used in the production of glass, soap and detergents.

### Caustic soda

Sodium hydroxide  
**NaOH**

Used in many industries and domestic applications.

A product known to many since childhood

Does not expire

Natural

Natural and versatile, it can be used for a variety of purposes including cooking, cleaning, medicinal applications, and even fire suppression.

Non-toxic, explosion and fire resistant

## Soda™

It is a modern approach to using baking soda and adapting it to the needs of today's consumer. SODA™ aims to attract conscious, youthful consumers who seek to minimize excess chemicals in their active lives.

POWERED BY SODA, APPRECIATED BY THE PLANET.

# 1

## VARIETY OF PACKAGING

SODA™ products are available in various packaging options, including bottles, capsules, plastic bags, and cardboard boxes, offering users convenience according to their preference. All packaging options are suitable for storing the product safely, whether for short-term or long-term use.

# 2

## A UNIQUE PRODUCT

A disicnt range - SODA™ products cater to diverse needs: from cleaning, to culinary, pet care, health, and beauty.

# 3

## ADDED VALUE FOR THE USER

Added user benefits - Each purchase comes with an instruction manual featuring practical tips. For further guidance on baking soda applications, visit [biosoda.eu](http://biosoda.eu).

# 4

## NATURAL PRODUCT

Natural and eco-friendly - Baking soda products are safe for humans and animals, offering a great alternative for households seeking to reduce chemical exposure and toxins.

# DISHWASHING TABLETS

101 WAYS TO USE IT

LT, LV, EE, FI, EN, SE, DK, NO

## Category | Cleaning

mr. Soda™ dishwasher tablets with baking soda. The effective formula with baking soda effectively removes food residues, grease and other dirt from dishes. Baking soda neutralises unpleasant odours and keeps your dishwasher clean.

**Ingredients:** 5-15% oxygen bleach, <5% non-ionic surfactants, polycarboxylates, enzymes. Also contains: Baking soda.

**Dosage:** 1 tablet = 1 washing cycle, regardless of how dirty the dishes are and how hard the water is. In case of tough stains, run the washing cycle at 65°C. With water hardness of more than 17°dH/6 mval/dm<sup>3</sup>, additional application of protective salt is recommended. Information on water hardness is available from your local water company.
